

To All Online Banking Customers:

On Friday September 18, 2026, Home State Bank's core processor will be merging into West Iowa Bank's core processor. Beginning Friday night, online banking will become inquiry only. You will be able to see your balances, but will not be able to make any transfers between accounts. On Monday, September 21, 2026, customers will be merged into the West Iowa Bank online banking system.

We are recommending that customers with e-statements, download any prior statements as they will not be available after September 18th. Paper statements will be mailed out to ALL customers with a cutoff date of September 18th. For a limited time, West Iowa Bank will be able to provide you statements from Home State Bank if you did not get everything downloaded before September 18th.

If you have any questions, please don't hesitate to reach out to us at 712-933-5511.

Thank you!
